

## SKIPPER SD60FM INDUSTRIAL HAND PUMP

- IDEAL FOR WATER, OILS & DIESEL
- CAN BE WALL OR BASE MOUNTED
- STRONG INTEGRAL ALUMINIUM HANDLE
- CAN HANDLE LARGE SOLIDS

*Originally designed for the Marine Industry, the Skippers' compact, lightweight design and economical price soon attracted industrial clients. This general purpose diaphragm pump has an excellent flow rate of up to 65 litres per minute (18 imp Gals). A particular feature of this pump is the ability to use 4 different angles for the port orientation cover and 6 possible handle positions, giving an outstanding 96 possible adaptations to pump mounting and use.*

*Supplied fitted with 25mm hose barbed ports, 38mm ports are included with the pump and can be changed very simply. Should you require, 19mm ports can be supplied instead. As with all our range of pumps, solids up to 75% of valve bore diameter can be sent through the pump. Nitrile rubber valves and diaphragm are supplied as standard, but we carry Butyl, EPDM and Viton elastomers in stock to suit your requirement. Repair kits are easily available and can be fitted in minutes.*

### Technical Specifications & Dimensions:
